

## **September 2008 MTI & Microcom Sign Distribution Agreement.**

**September, 2008** - MTI Wireless Edge & Microcom, a wholesale distributor for a wide variety of premium-quality low-cost products for the wireless industry, announced that Microcom has become a distributor of MTI WiMAX and FBWA antenna solutions in the USA. North America is a strategic and strong market for MTI antenna products and Microcom, which has a versatility in product offerings, combined with commitment to uncompromising customer service, on-time delivery, and support they deserve, will increase the market within different segments of MIMO and WiMAX markets. Microcom will improve wireless reseller accessibility to MTI's high quality, low cost antenna solutions in the US.

Dov Feiner, CEO & President, MTI Wireless Edge Ltd. said, "Microcom focuses on an interesting market segment within the USA that covers applications for PTP and PMP that will increase our strong Point-of-Sale for our WiMAX antenna solutions in the US."

"Microcom strives to provide the wireless products our customers need, and we believe MTI WiMAX antenna solutions will meet the demands of our wireless resellers so we can remain a one-stop-shop," said Dave Golob President of Microcom.
